

## Secondary Schedule for 20-21 School Year

**Theory of Action:** If we can minimize the moving parts in a student’s schedule this year, we believe that students will be more successful in both academic and social emotional learning.

The secondary plan breaks the yearly schedule down into seven 5-6 week blocks, with one class (G period) offered during the first block, and three classes (a rotation of A, B, C and D, E, F) for the other blocks, plus the Common Sense Media digital citizenship program and productivity skill development offered during all blocks. This plan can flex between virtual learning, face to face learning, and a hybrid model. It minimizes the moving parts for students by providing greater opportunity to focus on a limited number of classes, and makes space for one-on-one tutoring, social-emotional support, and organizational skill development. It reduces the number of communications between staff, students, parents, and guardians.
